Hi Nayyar,

Thank you for the update. Below are also requested to be added in the portal during our meeting with Harsh.

1. Kindly **freeze** Tax Organization Type field like the Supplier Number field:

The screenshot shows the 'Supplier Registration' form with the 'Business / Organization' tab selected. The 'Tax Organization Type' field is highlighted with a red box, indicating it should be frozen like the 'Supplier Number' field. The dropdown menu for 'Tax Organization Type' shows 'Individual' as the selected option.

2. For Suppliers choosing: VAT Registration type as **VAT Group**, below field should be mandatory, supplier should fill below fields.

Mention: Please list all entities within your VAT group (the same as below screenshot)

- Business Legal Name
- Address,
- E-invoicing Wave: (Wave 1 or 2)
- TRN Number,
- TIN number
- Bus. Location Type: (Mainland or Free zone)

Sample Screen below can be added in the Business/Organization tab.

The screenshot shows the 'VAT GROUP' screen with a table for listing entities within a VAT group. The table has columns for Business Legal Name, Address, E-Invoicing Wave, TRN Number, TIN Number, and Bus. Location Type. A 'Save & Continue' button is at the bottom right.

Business Legal Name	Address	E-Invoicing Wave (Wave 1/Wave 2)	TRN Number	TIN Number	Bus. Location Type (Mainland/Free Zone)	
		Select			Select	
		Select			Select	
		Select			Select	

3. Once the supplier submit its data in the portal, a **declaration** will pop up to put its signature on the supplier portal. (sample declaration only), the trigger for the difference of declaration will be VAT Registered field, Yes or No
